

To Whom It May Concern: I am an XM-radio user and i feel that NAB's  
Petition 04-160 should be killed. I pay for the service that I recive and were  
is it in the goverments intrest to tell me what I can and can not listen to. I  
am also a truck driver and the traffic and radio reports help me find my way  
around the large cities rush hour traffic and get to were i need to deliver. I  
feel that this service that XM-radio provides benafits that not only helpp me  
they help other travelers.

Sincerly  
Scott Janowski
